

WALTJA WAVE TOGETHER FOR LEARNING RESEARCH PROJECT MAY 2010

Waltja Directors met at Laramba community 12th May 2010 to review research data from the Ulkumantjuta Ukarratjuta Together for Learning Research Project. The base data was provided through community interviews by Waltja members, and some surveys with community employers (February to April 2010). Directors considered and added Training needs, training programs and providers that they are aware of in their own communities, and identified issues for further research and discussion. They prioritised training needs within each area (numbers in brackets).
